Confirmation of the Contiguous Tracts of Land Control

The Texana Groundwater Conservation District requires certain information to be supplied with production permit requests including information regarding the boundary and size of the related tracts of land controlled by the owner of the subject wells associated with the production permit request. This form may be used to confirm details regarding the spatial aspects of a permitting request by the applicant.

The map below illustrates the boundary of the contiguous tracts of land control (dashed line symbol) associated with Application AOW-20240328-01 as understood by the district. In addition, the map illustrates the location of any water wells registered with the district within the boundary (cross symbol).

The calculated area of the contiguous tracts of land control is 139.85 acres.

By my signature, I confirm that the boundary of the subject tract of land control, the calculated acreage for the boundary, and the location of existing wells within in the boundary are accurately represented on this form.
